

SEEKING YOUR INPUT

So... you may have heard on the grapevine that we're about to do something special with Karoonda Silos (subject to final approvals). We are in the late stages of planning the silo artwork in Karoonda which will include elements of both paint and digital projection as part of the Karoonda Township Activation Project.

Now, we need your help to develop the final brief for our two partnering art agencies, Illuminart and Juddy Roller. Both teams are working hard on finalising the technical details of blending paint and projection. In the meantime, we would love to find out what you would like to see on the silos, and why.

The artist in conjunction with Council will determine the final artwork, however, all suggestions will be taken on board. We will have the flexibility to occasionally change the projected artwork over the coming years to compliment the painted (static) portion of the works. Please let us know your thoughts by **COB 27 March 2019**.

Silo Artwork Suggestion:

Please return this completed form to Council via email: council@dckem.sa.gov.au, or PO Box 58, Karoonda SA 5307.

This project is funded under the Drought Communities Program, as such all works need to be completed by 30 June 2019. It is vital we **receive your feedback prior to 27 March** so we can finalise the artistic brief to ensure artists are commencing work on site in April.

We thank our Local Member, Tony Pasin MP, the Senator Hon Bridget McKenzie and the Federal Government for approving this funding and Viterra for their continued support and cooperation throughout these exciting times!
